

# BELGIAN MUMS 2021

Suitable for pot  
size 10-12 cm  
and six-packs

We are happy to introduce the new Gediflora catalogue 2021. Their fully focus is on breeding of ball shaped chrysanthemums.

For coming season, the rooted plugs will change to 150 hole plugs.

The NEW varieties on page 8 and 9 in the catalogue are looking good, but most of them are not suitable for greenhouse production. Some of them can be used in the greenhouse.

Gediflora are known for their series and are working hard to get as many series as needed. Their most famous serie is called **Jasoda** (6 colors), but they also have many other interesting series.

Soul Sister Dark Pink

Soul Sister Pink

Soul Sister Red

Soul Sister Dark Orange

Soul Sister Dark Yellow

Soul Sister White

<b>Amiko</b>	5 colors	Page 34-35	Reaction time 5 weeks	Only for pot sizes from 17 cm and smaller (Do not use pink in greenhouse)
